available

Dear Mr Narev

I send this letter to you personally and request your help to fairly resolve my case.

I attach and refer to two emails I sent to Mr Charles Perry, Manager Group Credit Structuring, Bankwest Sydney on 7 May 2014 noting and describing unconscionable and dishonest conduct involving Bankwest, Bankwest appointed receiver manager Mark Englebert, and Brian Benari.

Some of this conduct is criminal by way of the existence of intent and it is an offence under the Crimes Act for anyone to intentionally conceal such an offence.

This correspondence is to advise you personally of this conduct and to provide you with evidence by way of supporting documents attached. Please read the material attached and contact me if you require any further information or clarification of the issues described.

I request that you take action to report and expose the conduct involved. Please advise me of any action you take as this case involves companies that I am a director and shareholder of.

If you take no action and conceal what has happened after being made aware of the facts then you are committing a crime yourself and can be convicted and personally sued for damages. There is no time limitation for this.

I have requested independent arbitration to fairly resolve this matter. If this case isn't resolved I will take legal action including action against you personally if it is proven that you have intentionally concealed dishonest and unconscionable conduct. I hope you act now so this isn't required.

Yours Sincerely.

Sean Butler
